RE: Compliance with Measuring Device Notice, Staff Gauge Replacement or Repair

SEAA(s): 1126, 1127, 1137, 1139 and 1140

Water Users:

On May 5, 2006, the Division of Water Rights, office of the State Engineer ("Division") initiated the referenced State Engineer Agency Action(s) (SEAA) and sent you notices including the statutory requirements to take the necessary actions to assure accurate and legible staff gauges were installed or repaired on your individual diversions along the East Virgin River.

Discussions between the Division and Water Commissioner for the East Virgin River, indicates that the requirements for the subject notices have been met or accomplished to his satisfaction. Therefore, the subject agency actions can be formally concluded. Your efforts to comply with the order are commended and appreciated. Thank you for your attention in this matter.

Please be aware that maintenance of the diversion headgates and staff gauges remains your responsibility. You should consult regularly with the East Virgin Water Commissioner, Gerry Hoyt or with the Distribution Engineer, Mike Silva located at the Division of Water Rights in Salt Lake City to assure continued proper maintenance of your diversions and measuring devices.

Sincerely,

Mike Silva

Mike Silva
Distribution Engineer
